

ENERGY STAR® Application for Certification

77

ENERGY STAR ®
Score¹

60 State Street

Registry Name: 60 State Street

Property Type: Office

Gross Floor Area (ft*): 958,470

Built: 1978

For Year Ending: 11/30/2015²

Date Application Becomes Ineligible: 03/29/2016

1 The ENERGY STAR Score is based on total source energy. A score of 75 is the minimum to be eligible for the ENERGY STAR 2 Applications must be submitted to EPA within 120 days of the Year Ending Date. The award is not final until approval is received from EPA.

Please use the <u>Licensed Professional's Guide to the ENERGY STAR ® for Commercial Buildings</u> for reference in completing this checklist (http://www.energystar.gov/lpguide).

1. Review of Whole Property Characteristics

Basic Property Information			
1) Property Name for Registry: 60 State Street	VYes	□No	
Is this the official name to be displayed in the Registry of ENERGY STAR Certified Buildings and Plants?			
If "No", please specify:	,		
2) Property Type: Office Is this an accurate description of the primary use of this property?	√ Yes	□No	

3) Location: 60 State Street Boston, Massachusetts 02109	Yes	No
Is this correct and complete?		
4) Gross Floor Area: 958,470 ft ² Does this represent the entire property? (i.e., no part of the building/property was excluded/subtracted from the total) If "no" please specify what space has been excluded.	Yes	No
5) Average Occupancy: (6) (4) Is this occupancy accurate for the entire 12 month period being assessed?	Yes	□No
6) Number of Buildings: 1 Does this number accurately represent all structures?	Yes	□No
Notes: Two changes were made to gross square foo 1) Previous &F was net rentable. Building was, re-measured and 63,102 &F of support ar 2) &F was reduced by area of 2 ground flo that differed in operation from building. &F of related gas and electric were removed fro Indoor Environmental Standards	tage: profess ea was oor res 16,00	rionlly s added staurants 26 and etrics.
Ventilation for Acceptable Indoor Air Quality Does this property meet the ASHRAE Standard 62 for ventilation for acceptable indoor air quality?	Yes	□No
Acceptable Thermal Environmental Conditions Does this property meet the ASHRAE Standard 55 for thermal comfort?	Yes	□No
3) Adequate Illumination Does this property adhere to the IESNA Lighting Handbook for lighting quality?	Yes	No
Notes:		

2. Review of Property Use Details

Office: Office - Standard			
This Use Detail is used to calculate the 1-100 ENERGY STAR Score.			
常 1) Gross Floor Area: 316,673 ft²	,		
Is this the total size, as measured between the principal exterior surfaces of the enclosing fixed walls of the building(s)? This includes all areas inside the building(s) such as: occupied tenant areas, common areas, meeting areas, break rooms, restrooms, elevator shafts, mechanical equipment areas, and storage rooms. Gross Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.	Yes	No	
2) Weekly Operating Hours: (b) (4)	,		
Is this the total number of hours per week that the property is occupied by the majority of the employees? It does not include hours when the property is occupied only by maintenance, security, or other support personnel. The Weekly Operating Hours is not the same as the hours during which the HVAC equipment is run, but rather should be based on the hours during which your property is actually occupied by the majority of the tenants. It is possible that these hours may correspond to hours specified within a lease, during which the owner is required to provide the leasee with conditioned space. However, this number should never include additional HVAC startup or shutdown time. For properties with a schedule that varies during the year, Weekly Operating Hours refers to the schedule most often followed.	VYes	No	
	,		
Is this the total number of workers present during the primary shift? This is not a total count of workers, but rather a count of workers who are present at the same time. For example, if there are two daily eight hour shifts of 100 workers each, the Number of Workers on Main Shift value is 100. Number of Workers on Main Shift may include employees of the property, sub-contractors who are onsite regularly, and volunteers who perform regular onsite tasks. Number of Workers should not include visitors to the buildings such as clients, customers, or patients.	√Yes	No	
	,		
Is this the total number of computers, laptops, and data servers at the property? This number should not include tablet computers, such as iPads, or any other types of office equipment.	VYes	No	
	_		
Is this the total percentage of the property that can be heated by mechanical equipment?	Yes	No	
6) Percent That Can Be Cooled: (b) (4)	1		
Is this the total percentage of the property that can be cooled by mechanical equipment? This includes all types of cooling from central air to individual window units.	Yes	No	

Parking: Parking Garage			
This Use Detail is used to calculate the 1-100 ENERGY STAR Score.			
1) Open Parking Lot Size: 0 ft²	1		
Is this the total area that is lit and used for parking vehicles? Open Parking Lot Size refers specifically to open area, which may include small shading covers but does not include any full structures with roofs. Parking lot size may include the area of parking spots, lanes, and driveways.	√ Yes	No	
2) Partially Enclosed Parking Garage Size: 0 ft ²			
Is this the total area of parking structures that are partially enclosed? This includes parking garages where each level is covered at the top, but the walls are partially or fully open.	√Yes	☐ No	
3) Completely Enclosed Parking Garage Size: 75,645 ft ²	,		
Is this the total area of parking structures that are completely enclosed on all four sides and have a roof? This includes underground parking or fully enclosed parking on the first few stories of a building.	√Yes	☐ No	
3 4) Supplemental Heating: 100% Yes	,		
Does the parking garage have a heating system to pre-heat ventilation air and/or maintain a minimum temperature during winter months?	√ Yes	□ No	
Notes:			
Office: Office - (b) (4)			
This Use Detail is used to calculate the 1-100 ENERGY STAR Score.			
☆ 1) Gross Floor Area: 224,581 ft²	1		
Is this the total size, as measured between the principal exterior surfaces of the enclosing fixed walls of the building(s)? This includes all areas inside the building(s)	▼ Yes	No	

Notes:

Floor Area should not include interstitial plenum space between floors, which may house pipes and ventilation. Gross Floor Area is not the same as rentable, but rather includes all area inside the building(s). Leasable space would be a sub-set of Gross Floor Area. In the case where there is an atrium, you should count the Gross Floor Area at the base level only. Do not increase the size to accommodate open atrium space at higher levels. The Gross Floor Area should not include any exterior spaces such as balconies or exterior loading docks and driveways.			
2) Weekly Operating Hours:(b) (4)	,		
Is this the total number of hours per week that the property is occupied by the majority of the employees? It does not include hours when the property is occupied only by maintenance, security, or other support personnel. The Weekly Operating Hours is not the same as the hours during which the HVAC equipment is run, but rather should be based on the hours during which your property is actually occupied by the majority of the tenants. It is possible that these hours may correspond to hours specified within a lease, during which the owner is required to provide the leasee with conditioned space. However, this number should never include additional HVAC startup or shutdown time. Total Energy Consumption for this Meter

Do the fuel consumption totals shown above include consumption of all energy tracked through this meter that affect energy calculations for the reporting period of this application (i.e., do the entries match the utility bills received by the property)?

Notes: This meter is usually estimated; the one meter read per year is actually read and the account trued-up. Thus the one larger read.

Entries match utility bills.

Notes: This meter is usually estimated then one meter read is an actual read and the account 13 trued-up. Thus the smaller read.

Entries match utility bills.

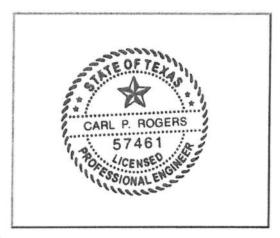

4. Signature & Stamp of Verifying Licensed Professional

Tim Ward (Name) visited this site on 8/19/16 (Date). Based on the conditions observed at the time of the visit to this property. I verify that the information contained within this application is accurate and in accordance with the Licensed Professional Guide.

Signature P. Rogert Date: 3/1/16

Licensed Professional License: 57461 in TX

Carl Rogers 12820 Hillcrest Rd, Suite 115 Dallas, TX 75230 214-538-0560 crogers@aol.com

NOTE: When applying for the ENERGY STAR, the signature of the Verifying Professional must match the stamp.

Professional Engineer Stamp

5. Signatory Agreement

I hereby nominate the above described property for award of the ENERGY STAR. I have provided a copy of the Licensed Professionals Guide to the ENERGY STAR for Commercial Buildings to our Licensed Professional (LP) for reference. As documented by the above checklist, this property meets the conditions necessary to qualify as ENERGY STAR. I am submitting this application within four months of the Year Ending Date (November 30, 2015) used to generate the application. I will assist EPA, if requested, in verifying any data included in this application. Furthermore, I agree to associate the ENERGY STAR logo only with this property and to adhere to the ENERGY STAR Identity Guidelines.

Signature (must be a direct employee of the building owner/manager).
